## INVESTMENT OPTIONS OFFERED BY "HOUSING AGENCY RETIREMENT TRUST" (HART)

- 1. Stable Value/Fixed Income Fund** - The Fund is managed by Invesco, a leading manager of discretionary stable value portfolios. The Fund is exposed to market value risk in the event the financial institutions providing investment contracts to the Fund do not make good on their contractual obligations. Effective June 1, 2007, the investment charge is 10 basis points (10/100<sup>ths</sup> of 1%). There is no sales charge.

**Investment Objective & Strategy** - The Fund's assets are invested in high quality fixed investments through either the direct ownership of securities or through the ownership of units within commingled funds investing in such securities. These investments are then wrapped by third party financial institutions such as banks and insurance companies to provide book value liquidity. In addition, the Fund may invest in investment contracts from banks and insurance companies that provide a stated rate of return. The Stable Value Fund seeks to provide current income with little or no fluctuation in underlying principal. For participant directed transactions, the Fund is maintained on a book value basis meaning that participant account balances are equal to the value of participant contributions plus accumulated interest less any participant directed withdrawals.

**Investment Objective & Strategy** - The State Street S&P 500® Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500® (the "Index") over the long term. "The Fund is managed using a ""passive"" or ""indexing"" investment approach, by which SSGA attempts to match, before expenses, the performance of the Index. SSGA will typically attempt to invest in the equity securities comprising the Index, in approximately the same proportions as they are represented in the Index. Equity securities may include common stocks, preferred stocks, depository receipts, or other securities convertible into common stock. The Fund may purchase securities in their initial public offerings (""IPOs""). In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSGA may employ a sampling or optimization technique to construct the portfolio in question. From time to time securities are added to or removed from the Index. SSGA may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, prior to or after their removal or addition to the Index. The Fund may at times purchase or sell index futures contracts, or options on those futures, or engage in other transactions involving the use of derivatives, in lieu of investment directly in the securities making up the Index or to enhance the Fund's replication of the Index return. The Fund's return may not match the return of the Index."
